

ST. HILDA'S SCHOOLS

Our Schools' main objective is to provide a balanced development of body, mind and spirit for our pupils, to produce God-fearing citizens for our nation.

To carry out the above objective the schools will:

- 1) Attempt to inculcate in the students desirable moral and social values.
- 2) Consider the needs of the students and their varying abilities in drawing up its academic and CCA programmes.
- 3) Encourage the students to be equally proficient in both their first and second languages.
- 4) Fully utilize existing resources, personnel and services.
- 5) Develop teaching and learning resources to enhance learning.

The Schools are entrusted with the responsibility of developing the pupils' character and basic skills in literacy and numeracy. Through its academic programme the school will seek to provide the students with the best possible learning environment for them to acquire proficiency in these skills.

The Schools' CCA programme will be aimed at giving a balanced education to our students and as resources are limited, the activities selected will tie in with our objective.

The Schools believe that the principal, vice-principal and all teachers are examples to the pupils. Therefore, they will be encouraged to provide good moral example, leadership and counsel to students.

The teachers' professional development is important and teachers will be identified and encouraged to attend in-service or advanced professional courses to upgrade themselves. The principal and teachers should collectively contribute to the drawing up of the school policy and be responsible for its achievement.

The Schools' vision is to achieve a dynamic learning community that nurtures loyal citizens with global outlook and Godly character.
